MATSON, INC. AND SUBSIDIARIES
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. DESCRIPTION OF THE BUSINESS

Matson, Inc., a holding company incorporated in January 2012 in the State of Hawaii, and its subsidiaries (“Matson” or the “Company”), is a leading provider of ocean transportation and logistics services. The Company consists of two segments, Ocean Transportation and Logistics:

Ocean Transportation: Matson’s Ocean Transportation business is conducted through Matson Navigation Company, Inc. (“MatNav”), a wholly-owned subsidiary of Matson, Inc. Founded in 1882, MatNav provides a vital lifeline of ocean freight transportation services to the domestic non-contiguous economies of Hawaii, Alaska, and Guam, and to other island economies in Micronesia. MatNav also operates a premium, expedited service from China to Long Beach, California, and also provides services to Okinawa, Japan and various islands in the South Pacific. In addition, subsidiaries of MatNav provide container stevedoring, refrigerated cargo services, inland transportation and other terminal services for MatNav and other ocean carriers on the Hawaiian Islands of Oahu, Hawaii, Maui and Kauai, and in the Alaska locations of Anchorage, Kodiak and Dutch Harbor.

Matson has a 35 percent ownership interest in SSA Terminals, LLC (“SSAT”), a joint venture between Matson Ventures, Inc., a wholly-owned subsidiary of MatNav, and SSA Ventures, Inc., a subsidiary of Carrix, Inc. SSAT provides terminal and stevedoring services to various carriers at seven terminal facilities on the U.S. West Coast, including four facilities which are used by MatNav (“Terminal Joint Venture”). Matson records its share of income in the Terminal Joint Venture in operating costs in the Condensed Consolidated Statements of Income and Comprehensive Income, and within the Ocean Transportation segment due to the nature of SSAT’s operations.

Logistics: Matson’s Logistics business is conducted through Matson Logistics, Inc. (“Matson Logistics”), a wholly-owned subsidiary of MatNav. Established in 1987, Matson Logistics is an asset-light business that provides a variety of logistic services to its customers including: (i) multimodal transportation brokerage of domestic and international rail intermodal service, long-haul and regional highway trucking services, specialized hauling, flat-bed and project services, less-than-truckload services, and expedited freight services (collectively “Transportation Brokerage Services”); (ii) less-than-container load (“LCL”) consolidation and freight forwarding services (collectively “Freight Forwarding Services”); (iii) warehousing and distribution services; and (iv) supply chain management, non-vessel operating common carrier freight forwarding and other services.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation: The Condensed Consolidated Financial Statements are unaudited, and include the accounts of Matson and all wholly-owned subsidiaries, after elimination of significant intercompany amounts and transactions. Significant investments in businesses, partnerships, and limited liability companies in which the Company does not have a controlling financial interest, but has the ability to exercise significant influence, are accounted for under the equity method. A controlling financial interest is one in which the Company has a majority voting interest or one in which the Company is the primary beneficiary of a variable interest entity. The Company accounts for its investment in the Terminal Joint Venture using the equity method of accounting.

Due to the nature of the Company’s operations, the results for interim periods are not necessarily indicative of results to be expected for the year. These Condensed Consolidated Financial Statements reflect all normal recurring adjustments that are, in the opinion of management, necessary for fair presentation of the results of the interim periods, and do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete consolidated financial statements.

The Condensed Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2017, filed with the Securities and Exchange Commission (“SEC”) on February 23, 2018.

[Table of Contents](#)

Fiscal Period: The period end for Matson covered by this report is September 30, 2018. The period end for MatNav and its subsidiaries covered by this report occurred on the last Friday in September, or September 28, 2018, for the third quarter 2018.

Significant Accounting Policies: The Company's significant accounting policies are described in Note 2 to the Consolidated Financial Statements included in Part II, Item 8 of the Company's Annual Report on Form 10-K for the year ended December 31, 2017.

Recognition of Revenues and Expenses: Revenue in the Company's Condensed Consolidated Financial Statements is presented net of elimination of intercompany transactions. The following is a description of the Company's principal revenue generating activities by segment, and the Company's revenue recognition policy for each activity:

Ocean Transportation (in millions) (1)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
Ocean Transportation services	\$ 431.4	\$ 414.1	\$ 1,207.3	\$ 1,167.3
Terminal and other related services	0.7	0.6	2.0	2.2
Fuel sales	3.5	2.8	8.7	7.3
Ship management services and related costs	1.7	1.7	5.2	5.1
Total	\$ 437.3	\$ 419.2	\$ 1,223.2	\$ 1,181.9

(1) Ocean Transportation revenue transactions are primarily denominated in U.S. dollars except for approximately 3 percent of Ocean Transportation revenues and fuel sales which are denominated in foreign currencies.

- Ocean Transportation services are recognized ratably over the duration of a voyage based on the relative transit time completed in each reporting period. Vessel operating costs and other ocean transportation operating costs, such as terminal operating overhead and general and administrative expenses, are charged to operating costs as incurred.
- Terminal and other related services to third parties are recognized as the services are performed.
- Fuel sales are recognized when the Company has completed delivery of the product to the customer in accordance with the terms and conditions of the contract.
- Ship management services and related costs are recognized in proportion to the services completed.

Logistics (in millions) (1)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
Transportation Brokerage and Freight Forwarding Services	\$ 135.4	\$ 110.1	\$ 391.0	\$ 309.3
Warehouse and distribution services	8.9	7.8	24.1	22.3
Supply chain management and other services	7.8	6.8	19.6	17.3
Total	\$ 152.1	\$ 124.7	\$ 434.7	\$ 348.9

(1) Logistics revenue transactions are primarily denominated in U.S. dollars except for approximately 3 percent of transportation brokerage and freight forwarding services revenue, and supply chain management and other services revenue categories are denominated in foreign currencies.

- Transportation Brokerage and Freight Forwarding Services consist of amounts billed to customers for services provided. The primary costs include third-party purchased transportation services, labor and equipment costs. Revenue and the related purchased third-party transportation costs are recognized over the duration of a delivery based upon the relative transit time completed in each reporting period. Labor and other operating costs are expensed as incurred. The Company reports revenue on a gross basis as the Company serves as the principal in these transactions because it is responsible for fulfilling the contractual arrangements with the customer and has latitude in establishing prices.
- Warehousing and distribution services consist of amounts billed to customers for storage, handling, and value-added packaging of customer merchandise. Storage revenue is recognized in the month the service is provided to the customer. Storage expenses are recognized as incurred. Other warehousing and distribution services revenue and expense are recognized in proportion to the services performed.
- Supply chain management and other services and related costs are recognized in proportion to the services performed.

The Company generally invoices its customers at the commencement of the voyage or the transportation service being provided, or as other services are being performed. Revenue is deferred when services are invoiced in advance by the

[Table of Contents](#)

customer. The Company's receivables are classified as short-term as collection terms are for periods of less than one year.

The Company expenses sales commissions and contract acquisition costs as incurred because the amounts are generally immaterial. These expenses are included in selling, general and administration expenses in the Condensed Consolidated Statements of Income and Comprehensive Income.

Capital Construction Fund: The Company's Capital Construction Fund ("CCF") is described in Note 7 to the Consolidated Financial Statements included in Part II, Item 8 of the Company's Annual Report on Form 10-K for the year ended December 31, 2017. As of September 30, 2018 and December 31, 2017, the following amounts related to the Company's CCF:

(In millions)	September 30, 2018	December 31, 2017
Capital Construction Fund:		
Cash on deposit	\$ —	\$ 0.9
Assigned accounts receivables	\$ 77.2	\$ 134.8

Cash on deposit in the CCF is held in a money market account and classified as a long-term asset in the Company's Condensed Consolidated Balance Sheets, as the Company intends to use qualified cash withdrawals to fund long-term investment in the construction of new vessels. During the nine months ended September 30, 2018 and 2017, the Company deposited \$246.6 million and \$64.6 million into the CCF, and made qualifying cash withdrawals of \$247.5 million and \$95.8 million from the CCF, respectively. Eligible accounts receivable that are assigned into the CCF are classified as part of accounts receivable in the Condensed Consolidated Financial Statements due to the nature of the assignment.

Investment in Terminal Joint Venture: The Company's investment in the Terminal Joint Venture was \$79.1 million and \$93.2 million at September 30, 2018 and December 31, 2017, respectively. Condensed income statement information (unaudited) for the Terminal Joint Venture for the three and nine months ended September 30, 2018 and 2017 consisted of the following:

(In millions)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
Operating revenue	\$ 289.4	\$ 227.4	\$ 806.5	\$ 638.2
Operating costs and expenses	(259.5)	(203.9)	(719.7)	(581.9)
Operating income	29.9	23.5	86.8	56.3
Net Income (1)	27.7	23.7	82.7	57.5
Company Share of Net Income	\$ 9.2	\$ 7.5	\$ 28.8	\$ 19.3

(1) Includes earnings from equity method investments held by the Terminal Joint Venture less earnings allocated to non-controlling interests.

Income Taxes: In connection with the Tax Cuts and Jobs Act that was signed into law on December 22, 2017 (the "Tax Act"), the Company recorded a non-cash tax adjustment of \$3.1 million that increased income taxes for the nine months ended September 30, 2018. No amount was recorded during the three months ended September 30, 2018. This adjustment related to the application of an estimated 6.2 percent sequestration on alternative minimum tax (AMT) refunds for the years 2018 to 2021, and was based on new guidance issued by the Internal Revenue Service and emerging interpretations of the Tax Act.

The Company continues to assess the impact of the Tax Act and any related interpretations, when issued, on the Company's income tax estimates. These and other factors could materially affect the Company's financial condition or its future operating results.

Contingencies: Environmental Matters: The Company's Ocean Transportation business has certain risks that could result in expenditures for environmental remediation. The Company believes that based on all information available to it, the Company is currently in compliance, in all material respects, with applicable environmental laws and regulations.

Other Matters: The Company and its subsidiaries are parties to, or may be contingently liable in connection with other legal actions arising in the normal course of their businesses, the outcomes of which, in the opinion of management after

consultation with counsel, would not have a material effect on the Company's financial condition, results of operations, or cash flows.

New Accounting Pronouncements: *Revenues from Contracts with Customers (Topic 606)* ("ASU 2014-09"): The Company adopted ASU 2014-09 during the three months ended March 31, 2018 using the modified retrospective method. This method allowed the Company to recognize the cumulative effect of initially applying ASU 2014-09 as an adjustment to retained earnings as of December 31, 2017. Prior to adopting ASU 2014-09, the Company performed a review of its revenue contracts and evaluated the Company's current accounting policies and procedures for recognizing revenues in the Company's Consolidated Financial Statements, and compared these to the new requirements of ASU 2014-09. In addition, the Company identified the performance obligations and consideration applicable under each contract.

Based on this evaluation, the Company determined that the impact of adopting ASU 2014-09 was immaterial because the analysis of the Company's contracts under ASU 2014-09 supports the recognition of revenue over time as the service is performed, which is consistent with the Company's current revenue recognition accounting policy. The majority of the Company's contracts require the Company to provide ocean and logistics transportation services to its customers. Such services are provided by the Company over a period of time, generally, when cargo is being delivered from source to destination point, or as the service is being performed. Therefore, performance obligations are completed in a short period of time due to the nature of the services provided by the Company. Under the new standard, revenues from the majority of the Company's contracts will continue to be recognized over time as the customer simultaneously receives and consumes the benefit of these services as described in ASU 2014-09. In addition, the identification of performance obligations and related consideration under the new standard is not materially different from our current accounting treatment.

Income Statement – Reporting Comprehensive Income (Topic 220) ("ASU 2018-02"): ASU 2018-02 allows a reclassification from accumulated other comprehensive income (loss) to retained earnings for the remeasurement tax effects resulting from the Tax Act. The Company elected to early adopt ASU 2018-02 during the three months ended March 31, 2018, and recorded a reclassification adjustment of \$6.0 million between accumulated other comprehensive income (loss) and retained earnings (see Note 7).

Compensation – Retirement Benefits (Topic 715), Improving the Presentation of Net Periodic Pension Cost and Benefit Cost ("ASU 2017-07"): ASU 2017-07 requires employers that sponsor defined benefit pension and post-retirement plans to present the service cost component of net benefit cost in the same income statement line item as other employee compensation costs arising from services rendered, and that only the service cost component will be eligible for capitalization. The other components of the net periodic benefit cost must be presented separately from the line item that includes the service cost component and outside of the income from operations subtotal.

The Company adopted ASU 2017-07 during the three months ended March 31, 2018. To conform prior period amounts to current period presentation as required by ASU 2017-07, the Company recorded retrospective adjustments and reclassified \$3.5 million and \$1.6 million of expenses from operating costs to other income (expense) in the Condensed Consolidated Statement of Income and Comprehensive Income for the three and nine months ended September 30, 2017, respectively. There was no change to income before income taxes for all periods presented as a result of adopting ASU 2017-07.

Leases (Topic 842) ("ASU 2016-02"): ASU 2016-02 requires lessees to record most leases on their balance sheets but recognize the expenses in their income statements in a manner similar to current practice. ASU 2016-02 states that a lessee would recognize a lease liability for the obligation to make lease payments, and a right-of-use asset for the underlying leased asset for the period of the lease term. The new standard is effective for interim and annual periods beginning after December 15, 2018 and early adoption is permitted. The Company is in the process of evaluating the implementation of this guidance.

3. REPORTABLE SEGMENTS

Reportable segments are components of an enterprise that engage in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available. The Company's chief operating decision maker is its Chief Executive Officer.

The Company consists of two reportable segments, Ocean Transportation and Logistics, which are further described in Note 1. Reportable segments are measured based on operating income, exclusive of interest expense and income taxes. In arrangements where the customer purchases ocean transportation and logistics services, the revenues are allocated to each reportable segment based upon the contractual amounts for each type of service. The Company's Terminal Joint Venture segment has been aggregated into the Company's Ocean Transportation segment due to the operations of the Terminal Joint Venture being an integral part of the Company's Ocean Transportation business.

The Company's Ocean Transportation segment provides ocean transportation services to the Logistics segment, and the Logistics segment provides logistics services to the Ocean Transportation segment. Accordingly, inter-segment revenue of \$27.6 million and \$24.1 million for the three months ended September 30, 2018 and 2017, and \$72.7 million and \$62.7 million for the nine months ended September 30, 2018 and 2017, respectively, have been eliminated from operating revenue in the table below.

Reportable segment results for the three and nine months ended September 30, 2018 and 2017 consisted of the following:

8. FAIR VALUE MEASUREMENTS

The Company values its financial instruments based on the fair value hierarchy of valuation techniques for fair value measurements. Level 1 inputs are unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date. Level 2 inputs include quoted prices for similar assets and liabilities in active markets and inputs other than quoted prices observable for the asset or liability. Level 3 inputs are unobservable inputs for the asset or

[Table of Contents](#)

liability. If the technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy, the lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The Company uses Level 1 inputs for the fair values of its cash equivalents, and Level 2 inputs for its CCF – cash on deposit, and variable and fixed rate debt. The fair values of cash and cash equivalents, CCF – cash on deposit, and variable rate debt approximate their carrying values due to the nature of the instruments. The fair value of the Company’s fixed rate debt is calculated based upon interest rates available for debt with terms and maturities similar to the Company’s existing debt arrangements.

The carrying value and fair value of the Company’s financial instruments as of September 30, 2018 and December 31, 2017 were as follows:

(In millions)	Total	Total	Quoted Prices in	Significant	Significant
	Carrying Value		Active Markets	Observable	Unobservable

9. EARNINGS PER-SHARE

The number of shares used to compute basic and diluted earnings per-share for the three and nine months ended September 30, 2018 and 2017, were as follows:

(In millions, except per-share amounts)	Three Months Ended September 30, 2018			Nine Months Ended September 30, 2018		
	Net Income	Weighted	Per	Net Income	Weighted	Per
		Average Common Shares	Common Share Amount		Average Common Shares	Common Share Amount
Basic:	\$ 41.6	42.7	\$ 0.97	\$ 88.4	42.7	\$ 2.07
Effect of Dilutive Securities:		0.4	—		0.3	(0.01)
Diluted:	\$ 41.6	43.1	\$ 0.97	\$ 88.4	43.0	\$ 2.06

(In millions, except per-share amounts)	Three Months Ended September 30, 2017			Nine Months Ended September 30, 2017		
	Net Income	Weighted	Per	Net Income	Weighted	Per
		Average Common Shares	Common Share Amount		Average Common Shares	Common Share Amount
Basic:	\$ 34.1	42.9	\$ 0.79	\$ 65.1	43.0	\$ 1.51
Effect of Dilutive Securities:		0.3	—		0.3	(0.01)
Diluted:	\$ 34.1	43.2	\$ 0.79	\$ 65.1	43.3	\$ 1.50

Basic earnings per-share is determined by dividing net income by the weighted-average common shares outstanding during the period. The calculation of diluted earnings per-share includes the dilutive effect of unexercised non-qualified stock options and non-vested restricted stock units.

The computation of weighted-average dilutive shares outstanding excludes certain non-qualified stock options to purchase shares of common stock where the options’ exercise prices were greater than the average market price of the Company’s common stock for the periods presented and, therefore, the effect would be anti-dilutive. The number of such shares excluded was nominal.

10. SHARE-BASED COMPENSATION

During the three and nine months ended September 30, 2018, the Company granted approximately 2,700 and 383,700 in total of time-based restricted stock units and performance-based shares to certain of its employees at a weighted-average grant date fair value of \$36.58 and \$31.21, respectively.

Total share-based compensation cost recognized in the Condensed Consolidated Statements of Income and Comprehensive Income as a component of selling, general and administrative expenses was \$2.7 million and \$2.9 million for the three months ended September 30, 2018 and 2017, and \$8.2 million and \$7.8 million for the nine months ended September 30, 2018 and 2017, respectively. Total unrecognized compensation cost related to unvested share-based compensation arrangements was \$14.9 million at September 30, 2018, and is expected to be recognized over a weighted-average period of 1.8 years. Total unrecognized compensation cost may be adjusted for any unearned performance shares or forfeited shares.

11. PENSION AND POST-RETIREMENT PLANS

The Company's pension and post-retirement plans are described in Note 11 to the Consolidated Financial Statements included in Part II, Item 8 of the Company's Annual Report on Form 10-K for the year ended December 31, 2017. The following tables provide the components of net periodic benefit cost for the Company's qualified defined benefit pension and post-retirement plans for the three and nine months ended September 30, 2018 and 2017:

The discussion that follows is intended to provide information that will assist in understanding the changes in the Company's financial statements from period to period, the primary factors that accounted for those changes, and how certain accounting principles, policies and estimates affect the Company's financial statements. MD&A is provided as a supplement to the Condensed Consolidated Financial Statements and notes herein, and should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2017, the Company's reports on Forms 10-Q and 8-K, and other publicly available information.

BUSINESS OUTLOOK

Ocean Transportation: The Company's container volume in the Hawaii service in the third quarter 2018 was 1.1 percent lower year-over-year primarily due to one less sailing. The Hawaii economy continues to be strong, supported primarily by healthy tourism activity and low unemployment. The Company expects volume in 2018 to approximate the level achieved in 2017, reflecting a solid Hawaii economy and stable market share.

In China, the Company's container volume in the third quarter 2018 was 3.3 percent lower year-over-year largely due to a dry-dock return sailing in the year ago period. Matson continued to realize a sizeable rate premium in the third quarter 2018 and achieved average freight rates higher than the third quarter 2017. For 2018, the Company expects freight rates to be higher than the average rate achieved in 2017 and volume to be modestly lower than the level achieved in 2017.

[Table of Contents](#)

In Guam, the Company's container volume in the third quarter 2018 was flat on a year-over-year and sequential basis. For 2018, the Company continues to expect a heightened competitive environment and lower volume than the levels achieved in 2017.

In Alaska, the Company's container volume for the third quarter 2018 was 2.0 percent lower year-over-year, primarily due to lower southbound volume as a result of a weaker-than-expected seafood season compared with the very strong seafood harvest levels in 2017, partially offset by an increase in northbound volume. For 2018, the Company expects volume to be modestly higher than the level achieved in 2017 with improvement in northbound volume largely due to the dry-docking of a competitor's vessel, partially offset by lower southbound volume primarily due to a weaker-than-expected seafood season compared with the very strong seafood harvest levels in 2017.

As a result of the performance in the first nine months and the outlook trends noted above, the Company expects full year 2018 Ocean Transportation operating income to be modestly higher than the \$126.4 million achieved in 2017.

Logistics: In the third quarter 2018, operating income for the Company's Logistics segment was \$2.6 million higher than in the third quarter 2017 due to improved performance across all of the service lines. The Company continues to expect Logistics' operating income for the full year 2018 to approximate \$30 million.

Depreciation and Amortization: For the full year 2018, the Company expects depreciation and amortization expense to be approximately \$132 million, inclusive of dry-docking amortization of approximately \$36 million.

EBITDA: The Company expects full year 2018 EBITDA to be modestly higher than the \$296.0 million achieved in 2017.

Other Income (Expense): The Company expects full year 2018 other income (expense) to be approximately \$2.5 million in income, which is attributable to other component costs related to the Company's pension and post-retirement plans.

Interest Expense: The Company expects interest expense for the full year 2018 to be approximately \$19 million.

Income Taxes: In the third quarter 2018, the Company's effective tax rate was 24.2 percent. For the fourth quarter of 2018, the Company expects its effective tax rate to be approximately 26.0 percent.

Capital and Vessel Dry-docking Expenditures: In the third quarter 2018, the Company made maintenance capital expenditure payments of \$19.2 million, capitalized vessel construction expenditures of \$55.8 million, and dry-docking payments of \$5.4 million. For the full year 2018, the Company expects to make maintenance capital expenditure payments of approximately \$77 million, vessel construction expenditures (inclusive of capitalized interest and owner's items) of approximately \$350 million, and dry-docking payments of approximately \$19 million.

Changes in operating revenue, and operating costs and expenses are further described below in the Analysis of Operating Revenue and Income by Segment.

The decrease in interest expense for the three months ended September 30, 2018, compared to the three months ended September 30, 2017, was due to increased interest expense offset by a higher amount of capitalized interest.

Other income (expense) relates to the amortization of certain components of net periodic benefit costs or gains related to the Company's pension and post-retirement plans.

Income tax expense was \$13.3 million or 24.2 percent of income before income taxes for the three months ended September 30, 2018, compared to \$21.5 million or 38.7 percent of income before income taxes for the three months ended September 30, 2017. The decrease in the effective income tax rate during the three months ended September 30, 2018, was primarily due to applying the tax law changes resulting from the Tax Act which lowered the federal income tax rate from 35% to 21% commencing January 1, 2018. The effective tax rate for the three months ended September 30, 2017 was also impacted by non-deductible expenses.

Ocean Transportation revenue increased \$18.1 million, or 4.3 percent, during the three months ended September 30, 2018, compared with the three months ended September 30, 2017. This increase was primarily due to higher fuel surcharge revenue and higher average freight rates in China.

On a year-over-year FEU basis, Hawaii container volume decreased 1.1 percent due to one fewer sailing; Alaska volume decreased by 2.0 percent primarily due to lower southbound volume as a result of a weaker-than-expected seafood season compared with the very strong seafood harvest levels in 2017, partially offset by an increase in northbound volume; China volume was 3.3 percent lower primarily due to an additional sailing in the year ago period; Guam volume was flat; and Other volume increased 36.4 percent largely due to the new Okinawa, Japan service.

Ocean Transportation operating income decreased \$2.3 million, or 4.5 percent, during the three months ended September 30, 2018, compared with the three months ended September 30, 2017. This decrease was primarily due to the unfavorable timing of fuel surcharge collections and higher terminal handling costs, partially offset by higher rates in China and Hawaii.

The Company's SSAT terminal joint venture investment contributed \$9.2 million during the three months ended September 30, 2018, compared to a \$7.5 million contribution during the three months ended September 30, 2017. The increase was primarily attributable to higher lift volume.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Environmental Matters: The Company’s Ocean Transportation business has certain risks that could result in expenditures for environmental remediation. The Company believes that based on all information available to it, the Company is currently in compliance, in all material respects, with applicable environmental laws and regulations.

Other Matters: The Company and its subsidiaries are parties to, or may be contingently liable in connection with other legal actions arising in the normal course of their businesses, the outcomes of which, in the opinion of management after consultation with counsel, would not have a material effect on the Company's financial condition, results of operations, or cash flows.

ITEM 1A. RISK FACTORS

There were no material changes to the Company's risk factors that are described in Part I, Item 1A, "Risk Factors" of the Company's Annual Report on Form 10-K for the year ended December 31, 2017, except as described below.

The Company's Shipbuilding Agreements with Philly Shipyard and NASSCO are subject to risks.

On November 6, 2013, MatNav and Philly Shipyard entered into definitive agreements pursuant to which Philly Shipyard will construct two new 3,600-TEU Aloha Class dual-fuel capable containerships. The first vessel, *Daniel K. Inouye*, was delivered on October 31, 2018. It is expected that the second vessel will be delivered in the first quarter of 2019. On August 25, 2016, MatNav and NASSCO entered into a definitive agreement pursuant to which NASSCO will construct two new 3,500-TEU Kanaloa Class dual-fuel capable container and roll-on/roll-off vessels, with expected delivery dates at the end of 2019 and in the fourth quarter of 2020. Failure of any party to the shipbuilding agreements to fulfill its obligations under the agreements could have an adverse effect on the Company's financial position and results of operations. Such a failure could happen for a variety of reasons, including but not limited to (i) delivery delays, (ii) delivery of vessels that fail to meet any of the required operating specifications (for example, capacity, fuel efficiency or speed), (iii) events in Korea which prevent one or more significant subcontractors to each of, Philly Shipyard or NASSCO from performing, or (iv) the insolvency of, or the refusal or inability to perform for any reason, by Philly Shipyard, NASSCO, or any of their respective subcontractors. Significant delays in the delivery of the new vessels could limit our ability to replace aging steamships without substantial modifications, which could also have an adverse impact on our business plans, financial condition and results of operations.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS
