### PROXY STATEMENT

# GENERAL INFORMATION

This proxy statement is furnished in connection with the solicitation of proxies by the Board of Directors of Alexander & Baldwin, Inc. ("A&B") for use at the Annual Meeting of Shareholders to be held on April 24, 1997 and at any adjournment or postponement thereof (the "Annual Meeting"). A proxy may be revoked at any time prior to its exercise by a written revocation bearing a later date than the proxy and filed with the Secretary of A&B, by submission of a later-dated proxy, or by voting in person at the Annual Meeting.

Only shareholders of record at the close of business on February 14, 1997 are entitled to notice of and to vote at the Annual Meeting. On that date, A&B had outstanding 45,337,945 shares of common stock without par value, each of which is entitled to one vote. Provided a quorum is present, the affirmative vote of a majority of the shares of A&B common stock represented at the Annual Meeting, in person or by proxy, and entitled to vote will be necessary for the election of directors and election of auditors. Abstentions and broker nonvotes will be included for purposes of determining a quorum at the Annual Meeting. Broker non-votes will have the same effect as a vote to withhold authority in the election of directors, and abstentions and broker non-votes will have the same effect as a vote against the election of auditors.

Following the original mailing of proxy soliciting material, officers, employees and directors of A&B and its subsidiaries may, without additional compensation, solicit proxies by appropriate means, including by mail, telephone, telecopy and personal interview. Arrangements also will be made with brokerage houses and other custodians, nominees and fiduciaries which are record holders of A&B's common stock to forward proxy soliciting material to the beneficial owners of such stock, and A&B will reimburse such record holders for their reasonable expenses. A&B has retained the firms of Morrow & Co., Inc., New York, New York, and Skinner & Co., San Francisco, California, to assist in the solicitation of proxies at a combined cost of \$11,000, plus reasonable out-of-pocket expenses.

This proxy statement and the enclosed proxy are being mailed to shareholders on or about March 10, 1997.

# ELECTION OF DIRECTORS

Directors will be elected at the Annual Meeting to serve until the next Annual Meeting of Shareholders and until their successors are duly elected and qualified. There is no cumulative voting in the election of directors.

NOMINEES. The nominees of the Board of Directors are the nine persons named below, all of whom are currently members of the Board of Directors. The Board of Directors has no reason to believe that any nominee will be unable to serve. The Bylaws of A&B provide that no person (other than a person nominated by or on behalf of the Board) will be eligible to be elected a director at an annual meeting of shareholders unless a written notice that the person's name be placed in nomination is received by the Chairman of the Board, the President, or the Secretary of A&B not less than 60 days nor more than 90 days prior to the anniversary date of the immediately preceding annual shareholders' meeting. If the annual meeting is not called for a date which is within 30 days of the anniversary date of the preceding annual meeting, a shareholder's notice must be given not later than 10 days after the date on which notice of the annual meeting was mailed or public disclosure of the date of the annual meeting was made, whichever occurs first. To be in proper written form, a shareholder's notice must set forth specified information about each nominee and the shareholder making the nomination. Such notice must be accompanied by a written consent of each proposed nominee to being named as a nominee and to serve as a director if elected.

CERTAIN INFORMATION CONCERNING THE BOARD OF DIRECTORS

COMMITTEES. The Board of Directors, which held seven meetings during 1996, has an Audit Committee and a Compensation and Stock Option Committee. A&B has no nominating or similar committee; the full Board of Directors performs that function.

The current members of the Audit Committee, which held three meetings during 1996, are Mr. McKissick, Chairman, Ms. Shaw, and Messrs. Chun, Denlea and Dods. The Audit Committee meets from time to time with A&B's independent auditors and has general responsibility for reviewing the accounting and auditing affairs of A&B.

The current members of the Compensation and Stock Option Committee, which held six meetings during 1996, are Mr. Stockholm, Chairman, and Messrs. King and Reed. The Compensation and Stock Option Committee has general responsibility for management and other salaried employee compensation, including incentive compensation and stock option plans.

COMPENSATION OF DIRECTORS. Directors who are not employees of A&B receive an annual retainer of \$16,000 and an additional \$3,000 if also serving as Chairman of a Board committee. In 1996, all directors received an attendance fee of \$700 per meeting. In addition, attendance fees of \$700 and \$600 per meeting were paid to A&B directors serving as chairmen and members, respectively, of Board committees. All A&B directors served as directors of A&B's ABHI and Matson subsidiaries and, in such capacities, received attendance fees of \$700 per ABHI or Matson Board meeting. Beginning in 1997, directors who are employees of A&B no longer will receive the attendance fees. Outside directors may defer up to 100 percent of their annual retainer and meeting fees until retirement or until such earlier date as they may select. No directors have deferred such fees.

Under A&B's Non-Employee Director Stock Option Plan ("Director Plan"), approved by the shareholders at the 1989 Annual Meeting, a non-qualified stock option to purchase 3,000 shares of A&B common stock automatically will be granted at each Annual Meeting of Shareholders to each individual who is, at such meeting, elected or re-elected as a non-employee director of A&B. The option price per share is the average of the means between the highest and lowest sales prices per share of common stock for the five consecutive trading days prior to the grant date, and the option expires 10 years from the date of grant, or earlier if the optionee ceases to be a director. Options become exercisable 6 months after the grant date. At the 1996 Annual Meeting held on April 25, 1996, options to purchase 3,000 shares of A&B common stock at an exercise price of \$24.75 per share were granted to each of the eight nonemployee directors. As of February 14, 1997, no options granted under the Director Plan have been exercised.

A&B maintains life insurance, retirement and deferred compensation plans, and provides medical and dental benefits, for its directors who are not A&B employees. The life insurance program affords coverage of \$50,000 for directors, as well as business travel accident coverage of \$200,000 for directors and \$50,000 for their spouses while accompanying directors on A&B business. Under the retirement plan, a director who has 5 or more years of service will receive, in addition to certain post-retirement health care insurance benefits, a lump sum payment upon retirement or attainment of age 65, whichever is later, that is actuarially equivalent to a payment stream for the life of the director consisting of 50 percent of the amount of the annual retainer fee in effect at the time of his or her retirement or other termination, plus 10 percent of that amount, up to an additional 50 percent, for each year of service as a director over 5 years.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE. Section 16(a) of the Securities Exchange Act of 1934 requires A&B's directors and executive officers, and persons who own more than 10 percent of its common stock, to file reports of ownership and changes in ownership on Forms 3, 4 and 5 with the Securities and Exchange Commission. Michael J. Chun, a director, was required to report the acquisition, under the Company's Dividend Reinvestment Program, of 5.2, 10.1 and 11.3 shares on or before February 14 of 1994, 1995 and 1996, respectively, but such acquisitions were reported in 1997. The Company believes that during fiscal 1996 all other reports required to be filed under Section 16(a) by its directors and executive officers were filed on a timely basis.

CERTAIN RELATIONSHIPS AND TRANSACTIONS. Pursuant to A&B's employee relocation policy applicable to all full-time salaried, non-bargaining unit personnel, in 1996 A&B agreed to purchase the former Honolulu, Hawaii residence of an executive officer of A&B for \$1,435,000, which was the fair market value as determined by averaging the amounts of two real estate appraisals obtained by A&B. The purchase was closed in January 1997. The Company intends to resell the residence for fair market value at the time of its sale, and to retain the net proceeds thereof.

Shares subject to such repurchase right may not be sold or transferred until such right lapses. As of December 31, 1996, the number and value (based upon a \$25.00 per share closing price of A&B's common stock on such date) of shares of restricted stock held by the named executive officers are as follows: Mr. Couch - 23,173 shares (\$579,325); Mr. Mulholland - 17,795 shares (\$444,875); Mr. Koncelik - 3,215 shares (\$80,375); Mr. Doane - 10,467 shares (\$261,675); and Mr. Rogers - 10,060 shares (\$251,500). All common stock-equivalent units are subject to the A&B Deferred Compensation Plan, which provides that, if the named executive officer leaves A&B's employ (for any reason other than retirement, death or disability), the named executive officer will no longer have any right, title or interest in any bonus common stock-equivalent units awarded within three years prior to the date of termination, and the non-bonus common stock-equivalent units credited to the named executive officer's account will be subject to conversion to cash at an amount equal to the lesser of the fair market value of A&B stock on the date of termination or the amount of the award that was converted to these non-bonus common stock-equivalent units.
- (8) "All Other Compensation" for 1996 includes: (i) amounts contributed by A&B to the A&B Profit Sharing Retirement Plan (Mr. Couch - \$8,025, Mr. Mulholland - \$8,025, Mr. Koncelik - \$8,025, Mr. Doane - \$8,025 and Mr. Rogers - \$8,025); (ii) amounts accrued for profit sharing under the A&B Excess Benefits Plan, pursuant to which executives chosen by the Committee receive additional credits and payments equal to the difference between the maximum benefit permitted under federal tax laws and the benefit the executives otherwise would receive under A&B's qualified plans (Mr. Couch - \$23,100, Mr. Mulholland - \$13,965, Mr. Koncelik - \$4,494, Mr. Doane - \$7,088 and Mr. Rogers - \$3,570); (iii) amounts contributed by A&B for the accounts of the named executive officers under the A&B Executive Survivor/Retirement Benefit Plan, pursuant to which executives selected by the Chief Executive Officer of A&B receive benefits in lieu of coverage over \$50,000 which otherwise would be provided under A&B's group life insurance program (Mr. Couch - \$26,227, Mr. Mulholland - \$10,614 and Mr. Rogers - \$23,205); and (iv) director fees (Mr. Couch - \$18,200 and Mr. Mulholland - \$18,200).

(a) Options granted on January 24, 1996 under the 1989 Stock Option/Stock Incentive Plan ("1989 Plan") with an exercise price per share equal to the fair market value of the underlying shares of A&B common stock on the grant date. These options became exercisable one year after the date of grant. No stock appreciation rights were granted with these options. Each of these granted options ("original option") contains a reload

feature, pursuant to which the optionee automatically will be granted a new option to the extent the original option is exercised within five years after the grant date through the optionee's delivery of previouslyacquired shares of A&B common stock in payment of the exercise price, and certain other conditions are satisfied at the time of such exercise. The reload option will be granted at the time the original option is so exercised, and will allow the optionee to purchase the same number of shares of A&B common stock as is delivered in exercise of the original option. The reload option will have an exercise price per share equal to the greater of (i) the fair market value per share of A&B common stock on the date the reload option is granted or (ii) 150% of the exercise price per share in effect under the original option. The reload option will not become exercisable unless the shares purchased under the original option have been held for at least two years. In certain merger, reorganization or change in control situations involving A&B, the exercisability of options under the 1989 Plan, whether original or reload options, will be accelerated in accordance with the terms of the grant, and options may be surrendered for a cash distribution per share equal to the difference between the fair market value of the option share (or, if greater, the change in control consideration paid per share) and the exercise price.

- (b) Reload option granted on June 18, 1996 under the 1989 Plan with an exercise price per share equal to 150% of the exercise price per share in effect under the original option. See footnote (a) above for additional information.
- (c) Based on an option pricing model proposed by A&B's independent compensation consultant that projects future gains from stock options. This option pricing model modifies the Black-Scholes model by using the average stock price volatility for a broad range of stocks and converting the results into explicit price growth assumptions consistent with the Capital Asset Pricing Model ("CAP-M"). The assumptions used in this pricing model are as follows: (i) the market value of A&B stock increases at a uniform rate of 10% compounded annually, (ii) stock options will be exercised five years from the date of grant, (iii) projected future gains are discounted back to the date of grant using a 15% discount rate, and (iv) the resulting current dollar values are further discounted by 5% to take into account the probability the stock options will be forfeited as a result of executives' termination of employment within one year of the grant date. This option pricing model makes no explicit assumptions about A&B's future dividend yields, but the CAP-M price growth and discount factors implicitly assume an average dividend yield of between 2% and 3% for the broad market. There is no assurance the value realized by an executive officer will be at or near the value estimated by this option pricing model. The actual value, if any, an executive officer may realize will depend upon how much the stock price has increased over the exercise price on the date the option is exercised.

LONG-TERM INCENTIVE PLANS. The following table provides information, with respect to the named executive officers, concerning threshold, target and maximum award levels determined in 1996 under A&B's Three-Year Performance Improvement Incentive Plan ("Three-Year Plan") for the three-year performance cycle beginning 1997 and ending 1999. Under the Three-Year Plan, neither shares, units nor other quantifiable rights are awarded to participants at the outset of the three-year cycle. Instead. at the beginning of the plan cycle, the Compensation and Stock Option Committee ("Committee"), with the advice and recommendations of management, identifies the participants for the Three-Year Plan and formulates the performance goals to be achieved for the plan cycle. Goals are established for A&B as a whole, for each operating unit, and for each individual participant. At the end of each plan cycle, results are compared with goals, and awards are made accordingly. Aggregate awards for all participants under the Three-Year Plan generally are limited by minimum pre-tax income levels for A&B set by the Committee in advance of each plan cycle, and if such minimum levels are not reached, the award of each participant is reduced proportionately. Participants may elect to receive awards earned under the Three-Year Plan entirely in cash or up to 50 percent in shares of A&B stock and the remainder in cash. A participant who elects to take stock may be awarded, in the Committee's discretion, as a premium, additional shares of common stock, valued at up to 50 percent of the amount of the award the participant has elected to take in stock. Both the premium and non-premium shares of A&B stock are subject to the A&B Restricted Stock Bonus Plan, which provides that if the participant leaves A&B's employ (for any reason other than retirement, death or disability) within three years after the award, the participant may lose all right, title and interest in the premium shares, and the non-premium shares will be subject to repurchase by A&B at the lesser of their fair market value at the time of repurchase or the amount of the award originally applied to their purchase. Cash payments made under the Three-Year Plan are reported in the "Summary Compensation Table" above for the year of payout, under column (h).

Under the A&B Deferred Compensation Plan, participants may elect to defer up to 100% of cash amounts earned under the Three-Year Plan until retirement or other termination of employment, or an earlier date specified by the participant, and may elect to convert all or a portion (subject to specified limitations) of such deferred amounts into common stock-equivalent units that are valued on the basis of the fair market value of A&B stock. The balance of such deferred award will be credited with interest, compounded annually, at an annual rate equal to 1% above the New York Reserve Bank discount rate. Participants who convert all or part of a deferred award into common stockequivalent units may, at the discretion of the Committee, be awarded as a premium up to 50% "bonus" common stock-equivalent units. If a participant leaves A&B's employ (for any reason other than retirement, death or disability), then such participant will no longer have any right, title or interest in any bonus common stock-equivalent units awarded within three years prior to the date of termination, and the non-bonus common stock-equivalent units credited to the participant's account will be subject to conversion to cash at an amount equal to the lesser of the fair market value of A&B stock on the date of termination or the amount of the award that was converted to these non-bonus common stock-equivalent units.

(2) In addition to the amounts shown, if the executive officers elect to receive any portion of their awards, up to a maximum of 50 percent, in restricted shares of A&B common stock, the Compensation and Stock Option Committee ("Committee") may, in its sole discretion, award additional restricted shares of A&B common stock valued at up to 50 percent of the amount of the awards elected to be taken in stock. See footnote (4) of the "Summary Compensation Table" above for additional information. Also, if the executive officers elect to defer all or a portion of their awards under the A&B Deferred Compensation Plan and to convert all or a portion of such deferred award into common stock-equivalent units, the Committee may, in its sole discretion, award additional common stock-equivalent units valued at up to 50 percent of the amount of the deferred award that is converted into common stock-equivalent units. See footnote (7) of the "Summary Compensation Table" above for additional information.

RETIREMENT PLAN. The A&B Retirement Plan for Salaried Employees, a non-contributory defined benefit pension plan, provides retirement benefits to A&B's salaried employees who are not subject to collective bargaining agreements. The table below shows estimated annual retirement benefits to covered participants at normal retirement age (age 65) under this plan, including amounts payable under A&B's Excess Benefits Plan, pursuant to which executives chosen by the Committee will receive additional credits and payments equal to the difference between the maximum benefit permitted under federal tax laws and the benefit the executives otherwise would receive under A&B plans.

Retirement benefits are based on participants' average monthly compensation in the 5 highest consecutive years of their final 10 years of service. Compensation includes base salary, overtime pay, certain commissions and fees, shift differentials and one-year bonuses. Credited years of service as of March 1, 1997 for the persons named in the above Summary Compensation Table are: Mr. Couch - 20.5, Mr. Mulholland - 31.6, Mr. Koncelik - 8.3, Mr. Doane -5.9, and Mr. Rogers - 21.6. The amounts are based on an ordinary straight life annuity payable at normal retirement age, and do not give effect to social security offsets.

SEVERANCE AGREEMENTS. A&B has entered into severance agreements (the "Severance Agreements") with Messrs. Couch, Mulholland, Koncelik, Doane and Rogers in order to encourage their continued employment with A&B by providing

them with greater security in the event of termination of their employment following a change in control of A&B. A&B also has entered into Severance Agreements with seven other employees, including three other executive officers. Each Severance Agreement has an initial two-year term and is automatically extended at the end of each term for a successive one-year period unless terminated by A&B. The Severance Agreements provide for certain severance benefits if the executive's employment is terminated by A&B without "cause" or by the executive for "good reason" following a "change in control" of A&B (as those terms are defined in the Severance Agreements). Upon such termination of employment, the executive will be entitled to receive a lump sum severance payment equal to two times the sum of the executive's base salary plus certain awards and amounts under various A&B incentive and deferred compensation plans, and an amount equal to the spread between the exercise price of outstanding options held by the executive and the higher of the then current market price of A&B common stock or the highest price paid in connection with a change in control of A&B. In addition, A&B will maintain all (or provide similar) employee benefit plans for the executive's continued benefit for a period of two years after termination. Each Severance Agreement provides for a tax gross-up payment to offset any excise taxes that may become payable by an executive by reason of Sections 280G and 4999 of the Internal Revenue Code if the executive's employment is terminated without cause or for good reason following a change in control of A&B.

#### COMPENSATION AND STOCK OPTION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The Compensation and Stock Option Committee ("Committee") of the Board of Directors directs the management of A&B's executive compensation program. The Committee is composed entirely of independent, non-employee Board members, and is assisted by an international management consulting firm that advises the Committee on compensation matters.

#### COMPENSATION PHILOSOPHY

The Committee has implemented an executive compensation philosophy, approved by the Board, that seeks to relate executive compensation to corporate performance, individual performance and creation of shareholder value. This philosophy is achieved through a performance-based compensation system, pursuant to which a substantial portion of executive officers' compensation is based on the short-term and long-term results achieved for A&B and A&B shareholders and on the executive officers' individual performances. For 1996, approximately 61% of the compensation of named executive officers in the above Summary Compensation Table was in the form of non-salary, performance-based compensation.

Consistent with this compensation philosophy, and to enhance the linkage between the financial interests of executive officers and those of A&B shareholders, the Board of Directors in 1994 approved stock ownership guidelines that recommend specified minimum levels of ownership of A&B stock to be met by executive officers within a period of five years. These recommended minimum levels range from ownership of A&B stock with a value of one times base salary to, in the case of the Chief Executive Officer, ownership of A&B stock with a value of five times base salary.

An objective of the executive compensation philosophy is to enable executive officers to receive above-average compensation, compared with compensation of executive officers with comparable job responsibilities at other companies, in order that A&B will be able to attract, retain and motivate executive officers. Achievement of above-average compensation is tied to corporate and individual results and the performance of A&B stock, so there is no assurance that this level of compensation will be achieved.

Comparative data is provided by the Committee's independent compensation consultant and is based on national compensation survey data from nearly 350 industrial companies, controlled for size and complexity. This survey data includes none of the four companies (other than A&B) included in the Dow Jones Marine Transportation Index used in the Shareholder Return Performance Graph which appears in this Proxy Statement. A&B competes for executive talent across a broad group of industries, so survey data based on a broad group of industrial companies is more appropriate than survey data based on just the companies in the Dow Jones Marine Transportation Index.

Consistent with the foregoing compensation objectives, the Committee will not necessarily limit executive compensation to that amount deductible by A&B under Section 162(m) of the Internal Revenue Code of 1986, as amended. The Committee nevertheless will consider the deductibility of executive compensation as one factor in its consideration of compensation matters, and will consider reasonable steps and alternatives to preserve the deductibility of compensation payments.

In accordance with the Committee's executive compensation philosophy, the major components of compensation under A&B's executive compensation program consist of: (i) base salary, (ii) annual incentive compensation pursuant to the One-Year Performance Improvement Incentive Plan ("One-Year Plan"), and (iii) long-term incentive compensation pursuant to the Three-Year Performance Improvement Incentive Plan ("Three-Year Plan") and the 1989 Stock Option/Stock Incentive Plan.

#### BASE SALARY

Adjustments to base salary, if any, are considered annually by the Committee. The Committee reviews the salary adjustments for the executive officers (other than the Chief Executive Officer) with the Chief Executive Officer and the senior human resources executive. In making a salary adjustment, the Committee normally will consider the executive officer's performance in the past year, the previously-described survey data provided by its independent compensation consultant pertaining to the salary level necessary for A&B to pay competitively, and projected salary increases in the coming year for executive officers in the diversified group of companies selected by its independent compensation consultant, but does not consider any specific corporate performance factor. For 1996, however, pursuant to the decision of management, there were no base salary increases for the Chief Executive Officer and other executive officers who were participants in the One-Year Plan.

# ANNUAL INCENTIVES

The One-Year Plan provides performance-based incentives to eligible executive officers and other key employees who contribute materially to the financial success of A&B. In determining the size of an incentive award to an executive officer, the Committee considers both corporate performance and individual performance (the latter includes the performance of the business unit for which the executive officer is responsible) in the past year. Corporate performance counts toward 10%-60% of the incentive awards, depending upon the executive officer's corporate responsibilities. For incentive awards granted for the 1996 plan cycle, the corporate performance factors, and their relative weights, were as follows: corporate profit before income tax (60%), corporate cash flow from operations (20%) and return on average total capital (20%). The relevant corporate performance factors and their relative weights are determined annually by the Committee, and therefore are subject to change for future plan cycles. At the beginning of each one-year plan cycle, the goals for these corporate performance factors, as well as the goals for the specific business units for which the executive officers are responsible and the goals for the individuals themselves, are identified, and threshold, target and maximum award levels are assigned. At the end of each plan cycle, the amounts of the incentive awards, if any, are determined by comparing results with the performance goals. Aggregate awards under the One-Year Plan are limited by whether A&B meets certain levels of corporate performance set by the Committee in advance of each plan cycle. The Committee, however, retains the discretion to adjust awards if, in its judgment, the awards do not accurately reflect the performance of A&B, the unit or the individual.

#### LONG-TERM INCENTIVES

The Three-Year Plan is structured like the One-Year Plan, but provides performance-based incentives to eligible executive officers and other key employees who contribute materially to the financial success of A&B on the basis of corporate performance and individual performance over a three-year performance cycle. Corporate performance counts toward 10%-100% of the incentive awards, depending upon the executive officer's corporate responsibilities. For incentive awards granted for the 1994-1996 plan cycle, the specific corporate performance factors, and their relative weights, were as follows: corporate profit before income tax (50%), corporate cash flow from operations (25%) and return on average total capital (25%). As with the One-Year Plan, the relevant corporate performance factors and their relative weights are determined annually by the Committee, and therefore are subject to change for future plan cycles. In addition, as with the One-Year Plan, the specific business unit performance factors used in assessing individual performance, and their relative weights, vary by business unit and job position. These business unit performance factors include, but are not limited to, profit before income tax, cash flow from operations, revenue, cost reduction, cost of crops, and schedule integrity.

Stock option grants under the 1989 Stock Option/Stock Incentive Plan are considered annually by the Committee. Stock option grants are viewed as a desirable long-term compensation method because they link directly the financial interests of executive officers with those of shareholders. Stock options are granted in the discretion of the Committee. In determining the size of a stock option award to an executive officer, the Committee considers the role of the executive officer and corporate performance and individual performance in the past year, without assigning specific weight to any particular factor. In determining the size of stock option awards, the Committee does not consider amounts of stock options outstanding, but does consider the size of previously-granted stock options and the aggregate size of current awards.

# CHIEF EXECUTIVE OFFICER COMPENSATION

As stated previously, Mr. Couch did not receive a base salary increase for 1996. Normally, however, the Committee considers a base salary increase for the Chief Executive Officer based on the Chief Executive Officer's performance in the previous year and the salaries of other executive officers with comparable job responsibilities in the diversified group of companies selected by its independent compensation consultant. In this regard, the Committee's objective is to maintain a competitive base salary. Mr. Couch's award under the Three-Year Plan for the 1994-1996 performance cycle was below target, reflecting below-target corporate profit before income tax, return on total capital and corporate cash flow from operations. Mr. Couch's award under the One-Year Plan for 1996 was above target, reflecting above-target corporate profit before income tax and return on total capital and below-target corporate cash flow from operations. Mr. Couch also received a stock option grant totaling 60,000 shares in 1996. That grant was based on an overall review of corporate performance in 1995, without focus on any specific corporate performance measure, and an assessment of Mr. Couch's past and expected contributions.

The foregoing report is submitted by Mr. Stockholm (Chairman), and Messrs. King and Reed.

# COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION
